B. Item

Description: **Housing Element Update:** GPA 2023-01

Project

Description: An update to the City of Healdsburg Housing Element of the General Plan. The City of Healdsburg has prepared a comprehensive update to the City's last adopted Housing Element for the next planning period covering 2023-2031, often referred to as the 6th Cycle Housing Element Update. The Housing Element Update (HEU) includes revised goals and policies, and new, modified, and continuing implementation programs. The HEU includes policies, procedures, and incentives in its land use planning and development activities that result in maintenance and expansion of the housing supply to adequately accommodate the City's anticipated housing needs. The HEU also addresses the City's Regional Housing Needs Assessment (RHNA) allocation. The RHNA allocates housing need based on future estimates of housing unit growth over the planning period (2023-2031). The City was allocated a total of 476 additional units from RHNA. To accommodate its RHNA allocation, the City has identified currently planned and approved development, projected ADU development, and acquisition and conversion of market rate units into affordable units which will surpass the required RHNA allocation. The City does not propose any rezoning of sites or specific site development as part of this planning process. The project is an administrative procedure of updating the City's Housing Element. Future development of housing projects will require site specific environmental review and entitlement approval.

Environmental

Determination: Pursuant to Section 15301 of the CEQA Guidelines, the proposed plan would have no possibility for causing a significant effect on the environment. The Guidelines state in that section that "A project is exempt from CEQA if the activity is covered by the common-sense exemption that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA." In addition, exceptions to the applicability of a Categorical Exemption, as specified in Section 15300.2(a) through (f) of the CEQA Guidelines, do not apply to the proposed plan. As such, the proposed plan meets all criteria for an exemption under CEQA Guidelines Section 15061(b)(3) and, pursuant to this exemption, "it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment."
