### ***Overview***

The Healdsburg City Council held a Goal Setting Workshop on Monday, March 25, 2024 at the Villa Chanticleer Annex. The purpose of the Workshop was to create the FY 24/25 Work Plan to guide the City's focus and efforts. The workshop allowed the City Manager to present an overview of the City budget to the City Council, along with an update on the polling results regarding potential amendments to the Growth Management Ordinance. The City Council then provided City staff with feedback on known projects for budget prioritization purposes, which will help direct City staff in compiling the upcoming FY 24/25 proposed budget.

Prior to this workshop, Council requested to included in the agenda a discussion about the potential for an Arts & Culture Commission, prepared and lead by City staff. The staff presented this concept during the afternoon session and City Council unanimously agreed to make it a goal for FY 24/25. City staff also gave an update on the current FY 23/24 Council goals and active project list, status, and next steps. Council agreed to include uncompleted goals and projects of FY 23/24 in the FY 24/25 work plan.

During the workshop, Councilmembers proposed numerous new goals to add to the FY 24/25 Work Plan. After much deliberation, Council conducted a straw-poll vote on individual goals to determine which ones would be added to the proposed 24/25 Work Plan.

The table to the right is a result of the straw-poll. Of the 17 proposed goals, there was Council consensus to add 11 of them in the FY 24/25 Work Plan.

The 11 new goals, together with the list of 25 uncompleted FY 23/24 goals and projects, make up the proposed 36 City Council Goals and Projects for FY 24/25. Council conducted a prioritization voting exercise to determine which goals and/or projects were their top priorities for staff to address in FY 24/25. Council selected seven items as their top priorities for FY 24/25 as illustrated in the below table.
